EXPERIENCE

Full-Stack Developer, Washington University Coding/Web Development Boot Camp

Apr. 2022 – Oct. 2022

- Engineered full-stack web applications by writing Node.js server code to serve static web pages and querying large amounts of data and answering questions from a MySQL database
- Utilized NoSQL databases, such as MongoDB, as an alternative to MySQL and converted traditional applications into progressive web applications (PWAs)
- Integrated third-party libraries (jQuery, Bootstrap), consumed RESTful APIs, parsed JSON to extract meaningful data, and used AJAX to update data on a website

Physical Therapy Technician, Activa Physical Therapy   **May 2019 – Sept. 2020**
- Carried out tasks on behalf of licensed practitioner to maintain a positive clinic environment and help clients reach their goals
- Worked closely with patients to achieve progress throughout injury rehabilitation, making sure to cater to the specific individuals needs and goals

SKILLS

Agile Workflow | React | Git proficiency | Website optimization | Responsive design | HTML | CSS | CMS management | API design knowledge | State Management Design | SQL integration | Node.js | MongoDB Software Proficiency | UX Design | UI improvements | Adobe Suite

PROJECTS

Full-Stack Developer, Final Project   **Apr. 2022 – Oct. 2022**
- Collaborated with a team of 5 developers to create a responsive application utilizing MongoDB, Express.js, React.js, and Node.js with a polished user interface
- Engineered application back-end server to utilize GraphQL with MongoDB for more efficient data querying to be served with an Apollo based React front-end
- Contributed to team separation of concerns and project management to facilitate an open and creative development environment

EDUCATION

Certificate of Completion, Coding Boot Camp   **Oct. 2022**
Washington University in Saint Louis

Bachelor of Science, Exercise Science   **May 2021**
Saint Louis University
